dedocolor®

MUTLICOLOR

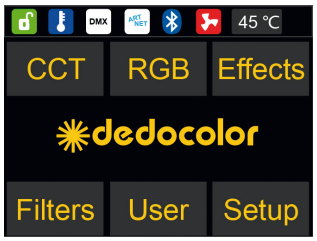
PANEL

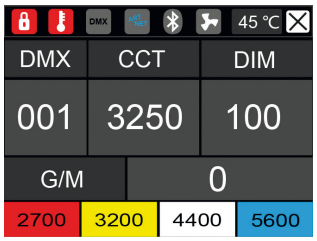
09/18 English

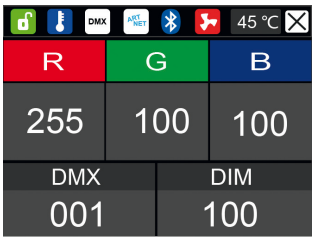
dedocolor – the perfect powerful and versatile LED - multicolor panel:

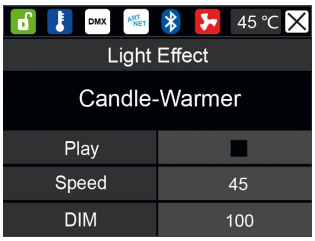
dedocolor multicolor LED panels incorporate a RGBWW LED (RBG + two white sources daylight and tungsten). Each color can be individually adjusted to generate 16.7 million colors in total. The dedocolor multicolor LED panels enable fast working pace by dialing in color hues rather than adding extra color gel at the front of the fixture.

- proprietory LED array: daylight + tungsten + RGB
- all accessories available
- built in powersupply for AC and DC
- manual and smart control: DMX, Artnet, LumenRadio + Bluetooth
- built in color effects selectable by filter number (Rosco / Lee)
- built in Effects engine









DCOLM technical data

beamangle:	115°
intensity:	9.738lx/1m, 1.087lx/3m @ 5600K; 8.415lx/1m 935/3m @ 3200K
brightness control:	PWM 0.1-100%
LED Source:	dedocolor tailor made high intensity and high CRI RGBWW LEDs (TLCI>98)
control:	Dimming, CCT & Color adjustment manually, DMX512-1990, Artnet or LumenRadio + Bluetooth
mode:	White Mode, Color Mode, Effects Mode
